2017 CHART OF ACCOUNTS - PROGRAM CODES

Current as at: 25-SEP-2017

Program Code Hierarchy:

Level 1 **Program Categories**

Level 2 **Program Items**

Level 3 **Program Sub-Items**

The Program Code is a four digit numeric code allocated for each program without trying to build a meaning into the code.

While the system allows for a 5 level hierarchy, only 3 will generally be used.

All transactions in lower levels are sub-totalled up to the higher levels of the hierarchy for reporting purposes. Transactions can only be entered at a level which allows for data entry (usually the lowest level). Codes which may not be used for transactions are indicated by "N" in the right-hand column - they may only be used for inquiries/reporting.
